ACADEMIC PROFILE

- ✓ Obtained Bachelor of Engineering (ECE) in 2020 from Aurora's technological and research institute which is affiliated to JNTU, Hyderabad (Telangana).

SKILL SET

Operating System	Windows
Programming Languages	Java
Technology & Frameworks	Java, JDBC, Spring MVC, Spring Boot and Restful Web Services, MySQL, Hibernate
Tools	Eclipse, STS IDE

PROJECT DETAILS

Project# 1: Application Maint Support to SmartEquip

Duration: June 2022 to September 2022

Technology: Java, MySQL, Spring Framework.

Team Size: 3

Project Description:

Smartequip's main product, e-FleetPro is a B2B web application platform for equipment manufacturers, dealers, and fleet owners. Here the fleet owners can search for the parts relevant to their equipment and place their orders. Its responsive, cloud-hosted (AWS) and white-labeled (theming, internationalized and configured per role/partner. Domain - construction, industrial equipment, and power tools industries. An Equipment Bill of Materials (BOM) identifies all the replacement spare parts for an equipment, so maintenance engineers can quickly identify the right part required and locate it from inventory or put in a purchase request, using the part number and vendor details.

Roles and Responsibilities:

- ❖ Gathering project requirement from clients
- ❖ Involved in minor Bug Fixing
- ❖ Responsible to make the work complete on or before time.
- ❖ Attended and contributed to development meetings.
- ❖ Used Git code management repository.
- ❖ Maintained, improved and fixed some minor bugs in existed code.
- ❖ Implemented tasks with a focus on relevant technologies.
